

Kurri Kurri Public School

Works notification | 2 June 2026

Dear staff, parents, carers and neighbours,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

A project is underway to refurbish the classrooms in Building E at Kurri Kurri Public School.

The ceiling void in this building is known to contain lead dust. Lead is considered a low health risk provided it isn't inhaled or ingested.

Termite damage has been identified in this area, and the lead will need to be removed to enable works to continue.

Work to remove lead dust from the ceiling will take place over 2 consecutive weekends, from **Saturday 13 to Sunday 14 June** and from **Saturday 20 to Sunday 21 June 2026** with safety measures in place.

All work will be done in accordance with work, health and safety laws and completed by experienced contractors.

The Building E classrooms will be inspected by an independent hygienist and a clearance certificate will be issued before the refurbishment works continue.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support during this important work.
