

# Mosman Public School

## Works notification | 21 August 2025

Dear neighbours,

We wish to advise you we will be installing a new shade structure over the basketball court at Mosman Public School.

The new shade structure will be scheduled for installation later this year to support student safety and wellbeing, providing sun protection and cover from rain, during outdoor play activities. This is in line with the department's sun safety and health guidelines.

The NSW Department of Education is authorised to self-assess and deliver certain types of developments.

The new shade sail is permitted under exempt development in Chapter 3 of the [State Environmental Planning Policy \(Transport and Infrastructure\) 2021 Act](#) (the Act). Section 3.39(1)(a1) of the Act permits 'an awning or canopy associated with a sporting field or any type of court used for sport,' to be constructed within the boundaries of an existing school, subject to compliance with the relevant provisions in the legislation.

### Scope of works:

- installation of a free-standing shade structure above the existing basketball court, located in the north-east corner nearest to Gouldsbury Street
- commercial grade high water resistance mesh fabric; colour dependent on availability
- works will take place during the school term, during approved local council working hours.

If you have any feedback about the planned work, please contact us on 1300 482 651 or [schoolinfrastructure@det.nsw.edu.au](mailto:schoolinfrastructure@det.nsw.edu.au) by Friday 5 September 2025.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities. We will keep the community updated.

Thank you for your cooperation during this important work.
