

Woollahra Public School

Works notification | 5 December 2023

Dear staff and parents/carers,

We are refurbishing the toilets in Building D at Woollahra Public School. This is the building that houses the student toilets adjacent to Osbourne Lane. In preparation for the upgrade, we will be removing material known to contain asbestos in the walls and ceiling panels as per the school's asbestos register.

Work to remove the material will take place on Saturday 16 December 2023, after students have finished for the school year.

The toilets in Building D will be cordoned off on 16 December, with additional safety measures and monitoring in place. The toilets will remain cordoned off until the toilet upgrade work is complete in early 2024.

All work involving asbestos containing materials will take place outside of school hours, with additional safety measures and monitoring in place before the work starts.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The building will be inspected by an independent hygienist to confirm it has been fully remediated, and the contractor will receive a clearance certificate before work continues on the upgrade.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.

If you have any questions about the work, please contact us on the details below.
