

Cessnock High School

Works notification | XX August 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We will be replacing the external eaves and internal ceiling lining on Building D at Cessnock High School on **Saturday 15 August 2026**.

This area is known to contain bonded asbestos as listed on the School Asbestos Management Plan (SAMP).

All work will be done in accordance with work, health and safety laws. All work will be completed by experienced contractors and inspected by independent hygienists.

Asbestos was used widely in Australian building materials before 1990. We manage the presence of asbestos in NSW public schools by maintaining an Asbestos Management Plan for each school and engaging independent hygienists for expert advice.

If you have any questions about this, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support during this important work.
