

Goulburn High School

Works notification | 20 September 2024

Dear staff, parents and carers,

In addition to the below works we notified you about on 4 September 2024, we will be completing further work this weekend (21-22 September) at Goulburn High School.

We will be removing asbestos-containing material from the Building G sub-floor and minor repairs in the top floor of the ceiling of Building A.

Distributed 4 September 2024

Dear staff, parents and carers,

We are writing to let you know of planned work at Goulburn High School over the next 2 weekends.

Asbestos removal

We will be removing asbestos-containing material from the sub-floor areas of Buildings A and B (September 7 to 8) and Building G (September 14 to 15). All work will be done outside school hours in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan.

Safety measures will be in place while work is being done.

All work will be completed by licensed and accredited asbestos contractors and monitored by independent hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

Building E

An independent hygienist will carry out precautionary air monitoring in the top floor of Building E and take samples from the ceiling void on 7 and 8 September.

If any additional work is required, it will take place the following weekend.

The health, safety, and wellbeing of the school and the local community is our highest priority.

We will keep you updated.

Thank you for your cooperation during this important work.
