

Goulburn High School

Works notification | 4 April 2024

Dear staff and parents/carers,

We are repairing the external roof lining in Building F at Goulburn High School. This will involve working with asbestos containing material in the roof.

Testing and the school's asbestos registered confirmed the ceiling lining contained asbestos. The canteen and toilet facilities in Building F are still being used as the external roof lining is undisturbed.

Work to replace the external roof lining will take place out of school hours on Monday 8 April 2024, under the supervision of an independent hygienist with additional safety measures including air monitoring in place.

All work will be done in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by independent hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The health, safety, and wellbeing of the school and local community is our highest priority, and we will continue to keep the community updated.

The area will be inspected by the independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate. The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
