

Grafton High School

Works notification | 13 June 2023

Dear staff and parents/carers,

We are refurbishing the flooring in Building D at Grafton High School.

As part of this work, asbestos containing vinyl tiles located under the carpet in a hallway in Building D will need to be removed.

The hallway is being safely used at present as the vinyl tiles are undisturbed and preserved under carpet.

This work will take place on Saturday 17 June 2023. Work areas will be cordoned off, and additional safety measures and monitoring will be put in place under the advice of an independent hygienist before works start. The areas will remain out of bounds until the work is finished.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The hallway will be inspected to ensure it has been fully remediated and the contractor will receive a clearance certificate before the flooring upgrade work can continue.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
