

Mudgee High School

Works notification | 19 August 2024

Dear staff, parents and carers,

During carpet removal in a deputy principal's office at Mudgee High School on Wednesday, 7 August 2024, the school's general assistant discovered vinyl tiles suspected of containing asbestos that were not listed in the school's asbestos register.

As a precaution, work was stopped on the same day and access to the room was restricted.

The deputy principals were able to use a second office within Building D.

There were no disruptions to school operations.

An independent hygienist visited the school on 8 August 2024 to test the tiles for asbestos-containing materials.

Test results confirmed that the tiles did not contain asbestos, and the hygienist issued a clearance certificate on 16 August.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
