

St George Girls High School

Works notification | 18 November 2024

Dear staff, parents and carers,

We are replacing the changeroom partitions as part of an upgrade to the changeroom facilities on the ground level in Building B at St George Girls High School.

The changeroom partitions are listed on the school's asbestos register.

Specialist contractors will remove the partitions on Saturday 14 December 2024 between 7 am and 3 pm.

We have engaged an independent hygienist to conduct air monitoring during the works.

All work involving asbestos-containing materials will take place outside of school hours.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors and monitored by independent hygienists.

An independent hygienist will issue a clearance certificate before the remaining works on the changerooms can continue.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
