Before construction in Building A

After construction in Building A

Message from your Principal

I am pleased to announce that the important upgrade works on our male and female student toilet facilities have now been completed. These improvements include modern fixtures, enhanced cleanliness and better accessibility to ensure a comfortable environment for all students.

I would like to sincerely thank our students and school community for their patience and understanding during the renovation period. We look forward to seeing our students benefit from these improved facilities as part of our ongoing commitment to providing a supportive and nurturing school environment.

Mr Paul Davis
Principal

These upgrades will provide our students with hygienic and welcoming spaces that support their health and wellbeing throughout the school day. Maintaining clean and functional facilities is essential in fostering a positive school experience and allowing students to focus on learning and growth.
