

Katoomba High School

Works notification

23 November 2022

Dear staff and parents/carers,

Following the unprecedented wet weather across NSW, Katoomba High School has unfortunately been impacted by mould due to extreme humidity.

Upcoming maintenance works to remediate mould and moisture will take place on Wednesday 23 November 2022. Works include an inspection of rooms in Block H (support unit building) and extensive cleaning in areas where mould was previously identified in walls and ceilings.

The areas will be cordoned off before works start, and safety measures and monitoring put in place. It will remain out of bounds to students and staff until the remediation work is completed.

All work will be completed by licensed and accredited contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The areas will be inspected to ensure they been fully remediated. The school will receive a clearance certificate before the areas are re-open to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
