

Casino High School

Works notification | 24 February 2023

Dear staff and parents/carers,

During demolition works, as part of the Multi-Purpose Unit building roof replacement at Casino High School, suspected asbestos containing material was found in the roof cavity. The area is currently cordoned off within the construction site and is inaccessible to students, staff, and school visitors.

Testing was conducted by an independent hygienist on Thursday 23 February 2023 to confirm the nature of the material and if remediation is needed. We are following all the advice and protocols of independent asbestos hygienists and other experts.

If necessary, this area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited independent asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated before the roof replacement works progress. The school will receive a clearance certificate before the Multi-Purpose Unit building is re-opened to students and staff.

The health, safety, and wellbeing of the school and local community is our highest priority, and we will continue to keep the community updated.

Thank you for your understanding during this important work.
