

Young High School

Works notification | 27 November 2023

Dear staff and parents/carers,

We are replacing flooring in a staff room in Building AA that was damaged by a roof leak at Young High School. This work will involve removing asbestos containing material in the vinyl tiles underneath the damaged carpet.

Other areas in the building are still being used as the vinyl tiles are undisturbed.

Work to remove and replace the flooring will start on Saturday 9 December 2023. All work involving asbestos containing materials will take place outside of school hours. The room will be cordoned off before the work starts, with safety measures and monitoring put in place.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The staff room will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate before it is reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
