

# Bega High School

## Works notification | 25 May 2026

Dear staff, parents, and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We are refurbishing multiple rooms in Building B at Bega High School. As part of these works, some flooring materials are known to contain bonded asbestos, as identified in the School Asbestos Management Plan (SAMP).

Work to remove asbestos containing materials will take place on Saturday 6 June 2026. Work hours are between 8 am and 1 pm on Saturday, in line with NSW Environment Protection Authority guidelines.

All work involving asbestos containing materials will take place outside of school hours with safety measures such as personal protective equipment and air monitoring in place.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

For more information about asbestos please visit the [NSW Health website](#) or scan the QR code.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support during this important work.
