

Junee High School

Community update | August 2024

Dear staff, parents and carers,

We are writing to let you know about the latest stage of the rebuild of the fire-damaged agriculture building at Junee High School.

Following the 7 May 2024 fire, the building was fenced off and the department began planning for the structure's demolition and future use.

The department issued a request for tender (RFT), during the Winter School Holidays, to invite contractors to carry out this work.

The new agriculture building will be built to Educational Facilities Standards and Guidelines (EFSG) and incorporate:

- New split-system air conditioning system
- New handrails
- New concrete slab
- New concrete sleeper retaining wall around the outside of the new building with drainage to divert water away
- New internal wet area

Tender submissions will close on 8 August 2024, followed by the assessment and contractor appointment.

We will continue to keep you updated.

Thank you for your cooperation as we continue to plan this important work.

If you have any questions or feedback, please contact the NSW Department of Education on the details below.
