

Punchbowl Boys High School

Works notification | 13 February 2026

Dear staff, parents, carers and neighbours,

As part of the NSW Government's plan to rebuild public education, a project is underway to install a lift and modify infrastructure at Punchbowl Boys High School.

The planning pathway for this project, the Review of Environmental Factors (REF) has been approved, allowing for construction to start.

Start of construction

The installation of the lift in Building A will start from Monday 16 February 2026. These works will provide disabled access and modify existing infrastructure throughout Building A. We expect the project to be finished by the end of 2026, weather and site conditions permitting.

The project includes:

- Site establishment and set up of a secure construction site and establishing a materials handling area.
- Building a four-storey access lift in Building A.
- Concrete works including replacing existing section of concrete between Building A and B.
- Removal and replacement of existing handrails in Building A, C and D.
- Modify ambulant bathroom, ambulant cubicle and bathroom accessories to improve their disabled accessibility.

Managing construction impacts

The safety of the school, visitors and the local community is our highest priority. We are committed to minimising disruptions where possible while work is taking place.

For more information about how we manage construction impacts, please visit our webpage at edu.nsw.link/ConstructionImpacts or scan the QR code.

Working hours

All site works will be undertaken in accordance with departmental and school operating constraints and procedures. Most works will be conducted between 7 am and 5 pm Monday to Friday, and 8 am and 1 pm on Saturday, in line with NSW Environment Protection Authority guidelines.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your cooperation while we deliver this important project for the Punchbowl Boys High School community.
