

Hunters Hill High School

Works notification | 17 July 2023

Dear staff and parents/carers,

We are replacing the ceilings and ceiling fans in a hallway in Building K at Hunters Hill High School. This work will involve working with suspected asbestos containing material in the ceiling linings.

We are following all the advice and protocols of independent asbestos hygienists and other experts.

Testing will be conducted by an independent hygienist before the work starts to confirm the nature of the material and if remediation is needed.

The rooms are being safely used at present as the ceiling is undisturbed and in good condition. As the work progresses across Building K, each room will be cordoned off before the work starts.

The maintenance work will start on Monday 31 July 2023. This project is expected to be completed at the end of term 4.

All work involving asbestos containing materials will take place outside of school hours, with additional safety measures and monitoring in place before the work starts.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

Each room will be inspected by an independent hygienist to confirm it has been fully remediated, and the contractor will receive a clearance certificate before maintenance works can continue.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
