

Cabramatta High School

Works notification | 19 August 2025

Dear staff, parents and carers,

A plumber investigated a damp smell in a classroom in Building O at Cabramatta High School on Monday 11 August 2025. During the inspection, they discovered mould underneath the sink cabinet.

As a precautionary measure, the affected classroom was closed, and students and staff were relocated to another classroom on the school site.

An independent hygienist inspected the mould on Wednesday 13 August 2025 and provided remediation advice.

The carpet underneath the sink cabinet will be replaced with vinyl tiles which will remove the mould and lower the chance of mould returning. This work is expected to take place within the next two weeks.

Access to the affected classroom will remain restricted until remediation is completed.

All work involving mould will take place outside of school hours, with appropriate safety measures in place.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
