

Picton High School upgrade

Project update | December 2024

Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2024-25 Budget is delivering record education funding, including \$1.4 billion for new and upgraded schools in regional NSW. This targeted investment will ensure growing communities get access to a world class public education.

Project overview

The NSW Government has committed funding for a project to install walls in open-plan classrooms at Picton High School. This upgrade will provide enclosed classrooms, ensuring that students and teachers have suitable environments for teaching and learning.

Progress update

- The design and construction contract for the Stage 1 works to enclose the first set of classrooms has been awarded to Trade Wind Pty Ltd.
- Construction commenced on 9 December 2024 and will continue throughout the summer school holidays. Works include removing sections of 3 classrooms, installation of wall framing and lining, and upgrades to air conditioning, power, and data systems to create enclosed classrooms.
- The tender for the Stage 2 design contract is currently being evaluated. Stage 2 will focus on classrooms with more complex requirements.

Next steps

- Stage 1 works will continue throughout Term 4 2024 and the school holidays, with expected completion before Day 1 Term 1 2025.
- The design tender for the Stage 2 works is expected to be awarded in mid-December 2024.

More information

You can find more information about the project at edu.nsw.link/PictonHS or by scanning the QR code. If you have any questions about this project, contact School Infrastructure during business hours using the contact details below.

School Infrastructure will be closed from 5 pm Friday 20 December 2024 to 9 am Monday 6 January 2025, inclusive. During this time, if there is an urgent issue, please contact the site manager listed on the construction site entry. In an emergency, please call triple zero (000).
