

# Kingsgrove North High School

## Works notification | 3 March 2026

Dear staff, parents, and carers,

On Monday 23 February 2026, damage to a window in Building K and a cupboard in Building A was identified at Kingsgrove North High School.

### **Window replacement in Building K**

The putty material in the window frame is known to contain bonded asbestos, as listed on the School Asbestos Management Plan (SAMP).

NSW Health explains that 'living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged'.

The damaged window glass was immediately secured for the safety of students and staff. As the putty material was undisturbed, the room was able to continue being used as usual.

### **Building A cupboard repairs**

Damage to the cupboard in Building A revealed suspected undisturbed bonded asbestos in the shelving, which is not identified on the SAMP.

The cupboard was immediately locked and access restricted. An independent hygienist was engaged to collect fragments for testing and provide advice.

Testing confirmed that the fragments contained bonded asbestos. The asbestos register will be updated to include this recent find.

### **Asbestos removal Saturday 8 March 2026**

Work to remove asbestos-containing materials from the Building K window and Building A cupboard will be done on Saturday 8 March 2026.

Work will be done under the guidance of an independent hygienist who will inspect and issue a clearance certificate once the work is finished. Safety measures, including air monitoring, will be in place.

All asbestos-related work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors.

The health, safety, and wellbeing of the school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.
