

Seven Hills High School

Works notification | 13 May 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We are replacing floor coverings in the performance workspace room in Building D at Seven Hills High School. This work will also involve the removal of vinyl tiles in the room, known to contain bonded asbestos and listed on the School Asbestos Management Plan (SAMP).

In preparation for this work, the performance workspace room has been isolated to restrict access to students, staff and school visitors.

All work involving asbestos-containing materials will take place outside of school hours on Saturday 16 May 2026 and be finished on the same day with safety measures such as PPE and air monitoring in place.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this important work.

What makes Seven Hills High School special?

"Seven Hills High School is a vibrant learning community where students are supported to develop confidence, resilience and a love of learning."

- Matthew Saville, Principal of Seven Hills High School
