

Seven Hills High School

Works notification | 30 November 2023

Dear staff and parents/carers,

We are replacing roof tiles with metal roof sheeting in Building B at Seven Hills High School. This work will involve working with asbestos containing material in the roof cavity of this building.

Work to remove asbestos containing material will take place on the weekend of Saturday 9 December to Sunday 10 December.

The whole building will be cordoned off before the work starts with additional safety measures and monitoring put in place during work.

All work involving asbestos containing materials will take place outside of school hours. Access to the building including the staff study and music rooms will be as normal during the school week.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The roof cavity will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate following the work.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
