

Matrville Sports High School

Project update | June 2026

Investing in our schools

As part of the NSW Government's plan to rebuild public education, the NSW Budget is delivering record education funding, including \$9 billion for new and upgraded schools. This targeted investment will ensure growing communities get access to a world class public education.

The future of Block G

Block G (the current school hall) will be demolished over the upcoming summer holiday period. Demolition has been scheduled during this time for the health, safety and wellbeing of the school community, to minimise disruption to school activities and to allow sufficient time for flexibility to manage any unforeseen issues.

Block G has been non-operational with restricted access since asbestos was discovered in the eave linings last year. For the safety of the school community, the building has been wrapped while a plan for its future was developed.

Block G work will include:

demolition of Block G and safe removal of hazardous materials

remediation of the grounds to maximise outdoor space

Work is underway to:

- procure a demolition contractor experienced in asbestos removal
- prepare a remediation plan for the land
- prepare a range of detailed options for the long-term replacement of the hall.

The schedule of works will be developed in consultation with school leadership and the contractor. We will notify the community ahead of works starting.

Block C

Further to our notice issued [20 May 2026](#), the encapsulation of the ground floor ceiling void in Block C is now finished and the area has been cleared by an independent hygienist. This is the final stage to remediate known friable asbestos in this building.

Access to the ground floor of Block C remains restricted while construction activities continue on the High Potential and Gifted Education upgrades. For more information about this project, please visit edu.nsw.link/MatrvilleSportsHS-HPGE.

If you have any questions, please contact us during business hours using the details below.

Thank you for your support while we deliver these important projects for the Matrville community.
