

# Glenmore Park High School

Works notification | 14 June 2023

Dear staff and parents/carers,

During inspections prior to new ventilation being quoted to be installed in Building J at Glenmore Park High School, mould was found in the GA room and subfloor area of Building J where the school stores student records.

The GA room and subfloor area of Building J are inaccessible for students and both areas have been cordoned off. The school is relocating the GA room. A remediation plan will be provided by licensed and accredited contractors before remediation can take place.

Once the student records can be safely removed from the GA room and subfloor area of Building J, the areas will be thoroughly cleaned with air scrubbers.

All work involving mould will be carried out with additional safety measures and monitoring in place before the work starts.

Work will be done in accordance with SafeWork NSW regulations. All work will be completed by licensed and accredited contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The health, safety, and wellbeing of the school and the local community is our highest priority, and we will keep the community updated.

Thank you for your cooperation during this important work.
