

# Corowa High School

## Works notification

18 October 2022

During construction for the administration upgrade at Corowa High School, the floor tiles are suspected to contain asbestos and will need to be removed appropriately.

For this work, we follow the advice and protocols of asbestos removalists, assessors and other experts.

Work will take place between Saturday 29 October and Sunday 30 October 2022. All asbestos containing material will be removed outside of school hours and in accordance with the advice of the independent hygienist.

The area is cordoned off within the worksite and safety measures and monitoring will be put in place. It will remain out of bounds to students and staff until the removal and associated work is completed.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The construction contractor will receive a clearance certificate following remediation.

The health, safety, and wellbeing of the school and the local community is our highest priority and we will continue to keep the community updated.

Thank you for your cooperation during this important work.
