

Moree Secondary College Albert Street Campus

Works notification | 30 April 2024

Dear staff and parents/carers,

Following a water leak on 20 March 2024 at Moree Secondary College, mould was observed to be growing on the carpet and ceiling in a storeroom and classroom in Building B.

As a precaution, the affected rooms were immediately cordoned off from students and staff and classes were relocated. An independent hygienist was engaged to provide remediation advice.

Work to environmentally clean the storeroom and classroom, and remove any impacted materials took place over the Autumn School Holiday period, on 18 April 2024. As an extra precaution the carpets in these affected areas were also removed and replaced.

All work involving hazardous materials took place outside of school hours, with additional safety measures and air monitoring in place while work was done.

All inspections and remediation works were conducted in accordance with recommendations from the independent hygienist.

Use and access to the areas was restricted until a clearance certificate was received and the space was reopened for use.

The health, safety, and wellbeing of the school and local community is our highest priority, and we will continue to keep the community updated.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
