

# Yass High School

## Works notification | 3 November 2025

Dear staff, parents and carers,

Planned maintenance work will take place at Yass High School to remove bonded asbestos vinyl tiles from the Level 1 storeroom and computer resource room in Building C, on Saturday 15 November 2025.

Work will take place on Saturday 15 November 2025, between 8 am and 1 pm, in line with NSW Environment Protection Authority guidelines. Should any further work be required, it will take place on Sunday 16 November 2025.

NSW Health explains that “living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged.”

All work will be done in accordance with work health and safety laws and the NSW Department of Education’s Asbestos Management Plan. Safety measures including air monitoring will be in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

For more information on asbestos and health risks, please visit the [NSW Health Website](#).

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities. We will keep the community updated.

Thank you for your cooperation during this important work.
