

Condobolin High School

Works notification | 16 February 2026

Dear parents, staff and carers,

The NSW Department of Education is undertaking planned maintenance works at Condobolin High School.

On Friday 13 February 2026 a contractor was on site and identified visible edges on bonded asbestos-containing ceiling sheets in the cleaner's storeroom and hot water storeroom in Building F.

Access to these rooms will be restricted while work to resecure the ceiling sheet is being carried out.

An independent hygienist will undertake works by applying PVA glue to the identified ceiling sheet to keep it in place. Work is scheduled to occur in the week commencing Monday 16 February 2026.

NSW Health explains that 'living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged'.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors.

The storerooms will be inspected by an independent hygienist and a clearance certificate will be issued before the rooms are reopened.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
