

# Gilgandra High School

Works notification | 6 September 2023

Dear staff and parents/carers,

On Thursday 31 August 2023, a light in the hall in Building G exploded and caught alight at Gilgandra High School. The hall was not occupied at the time and the area was cordoned off immediately.

An electrician was engaged to assess the light fixture and they installed a new one. Contractors inspected the hall to ensure all debris was removed.

The area remains closed. Additional maintenance to repair and restore the timber flooring will take place later this week before the hall is reopened.

The health, safety, and wellbeing of the school and local community is our highest priority.

Thank you for your understanding during this important work.
