

Tenterfield High School

Works notification | 2 April 2025

Dear staff, parents and carers,

We have been fitting out a support class in the science building at Tenterfield High School during Term 1.

This work includes:

- installing a kitchenette
- completing minor electrical and plumbing work
- replacing carpet.

The support class is scheduled to be operational from Monday 28 April 2025.

Suspected asbestos-containing vinyl tiles – located beneath the carpet - will be removed on the weekend of Saturday 12 April and Sunday 13 April.

NSW Health explains that “living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged “.

All work will be done in accordance with work health and safety laws and the NSW Department of Education’s Asbestos Management Plan.

Safety measures, including signage, temporary fencing and air monitoring, will be in place while work is being done.

All work will be completed by licensed asbestos contractors and monitored by independent hygienists.

The area will be inspected by the independent hygienist to confirm it has been fully remediated, and a clearance certificate will be issued before the area is reopened.

The health, safety and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
