

Castle Hill High School

Works notification | 4 July 2024

Dear staff, parents and carers,

We regularly inspect and maintain schools to ensure the safety and wellbeing of our school communities.

The school holidays are the ideal time for maintenance and project work to take place in schools across the state to minimise any disruption to school operations and learning.

Planned work over the Winter School Holidays

We will be completing work at your school during the Winter School Holidays. This period may include from the end of the school day on Friday 5 July 2024 up to the first day of Term 3 for staff on Monday 22 July 2024.

Over the school holidays at Castle Hill High School we will be undertaking:

- industrial arts equipment servicing
- plumbing, water line repairs and roof leak remediation
- gas line repair
- minor carpentry
- external concreting
- electrical work
- locksmith work
- air conditioner repairs
- glazing.

Work involving disturbance of known asbestos-containing material will be completed in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan with safety measures in place while work is being done. All work will be completed by licensed and accredited asbestos contractors and monitored by independent hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

Gym refurbishment

The gymnasium refurbishment project will also begin in the Winter School Holidays and will continue throughout Term 3 2024. Stage 1 of this project involves installing new footings and replacing the timber floor. We are also repairing the staff study attached to the gym.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
