

# Castle Hill High School

## Works notification | 13 February 2026

Dears staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

As part of planned IT upgrades, we will be replacing the communications rack in the print room on the first floor of Building D at Castle Hill High School.

Work will take place outside of school hours and will commence from 4pm Friday 13 February 2026 until Sunday 15 February 2026.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan.

While there is no known asbestos-containing material in the work area, safety measures, including air monitoring and signage, will be in place while work is being done. All work will be inspected by independent hygienists, who will provide a clearance certificate before the room is reopened for use.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
