

# Castle Hill High School

Works notification | 6 March 2024

Dear staff and parents/carers,

## **Repairs to gas heaters in Castle Hill High School gymnasium continue**

As mentioned in a previous works notification dated 1 March 2024, a gas line to a heater in the gymnasium was damaged by a basketball and required urgent repairs.

Qualified and licenced gas repair professionals have been on site to assess the damage and will continue working on the heater(s) until at least Thursday, 7 March 2024.

Access to the top floor of Building F, which includes the gymnasium, PE staff room, changing rooms and toilets, will remain cordoned off and out of bounds until further notice. Ground-floor classrooms remain available for use.

When the repairs are finished, the areas above will be reopened and available for use.

Our highest priority is the health, safety, and wellbeing of the school and the local community.

Thank you for your cooperation during this important work.
