

# Westfields Sports High School

## Works notification | 15 May 2026

Dear parents and carers,

### Planning underway for replacement of exterior panels on Block S

We are aware of ongoing issues with the exterior panels on Block S, which contains the woodwork and metal work classrooms. This building was completed in 2021 as part the wider upgrades to the school.

Some panels have shown signs of cracking and fragments have come loose. While repairs were made last year, further work is required to ensure the safety of the school community.

#### What's happening now

We have set up catch nets and exclusion zones around Block S to catch any debris that might fall.

We have also been working with the original builders and their engineers to understand the cause of the issues. They have confirmed that all exterior panels on Block S may need to be replaced.

#### Next steps

This weekend, we will install extra safety measures in areas where there could be a risk to staff or students and start removing some of the panels.

We plan to start the replacement works during the July school holidays and will share plans with you as soon as they are available.

The safety of the staff and students is our top priority. Thank you for your understanding and patience as we work together to keep the school safe and secure.
