West Wyalong High School
Works notification | 4 September 2026

Dear staff, parents and carers,

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

We are writing to provide an update to the works notification issued on 1 September 2026. We are pleased to advise that the water supply at West Wyalong High School was restored on Thursday 3 September 2026.

Following the plumbing works, an independent hygienist inspected the area and completed air monitoring. The results confirmed that the area can be reopened for normal school activities.

The temporary portable toilets will now be disconnected and removed from the school, pending contractor availability.

Temporary fencing will remain in place while the plumber reinstates the concrete sections that were removed as part of the works. The fencing will be removed once these works are complete.

Thank you for your patience and understanding while these works were carried out. We appreciate your support.
