

Erina High School

Works notification

15 December 2020

Dear parents/carers,

Upcoming planned maintenance works at Erina High School will require working with lead containing material.

The area will be remediated in accordance with SafeWork NSW regulations. All work will be completed by licensed and accredited contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The work is scheduled to occur in the roof cavity of Block N during the summer holidays between Thursday 7 January 2021 and Monday 25 January 2021.

Testing will be completed to ensure the area has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff. We will keep you informed if further material is found which requires removal.

The health, safety, and well-being of the school and the local community is our highest priority. Please be assured that the removal of this material will not pose a risk to the local community.

Thank you for your cooperation during this important work.
