

Erina High School

Works notification | 28 February 2023

Dear staff and parents/carers,

Upcoming maintenance works to replace ceiling sheets at Erina High School will involve working with asbestos containing material in the ceiling cavity of Buildings A, D, F & H.

The area is safe at present and temporary fencing will be installed around the respective buildings on Wednesday 01 March 2023 before works start. Works will only take place on the edge of each building and will not affect learning spaces.

Work to remove the material will take place on Saturday 4 March 2023. All works involving asbestos containing materials will take place outside of school hours, with additional safety measures and monitoring in place before works start.

The area will remain out of bounds to students and staff until the removal and associated maintenance work is finished.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected by the independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate before the buildings are reopened to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
