

Georges River College Peakhurst Campus

Works notification | 22 November 2024

Dear staff, parents, carers and neighbours,

On Tuesday 19 November 2024 during excavation for the installation of a new volleyball court, fragments of material suspected to contain asbestos were identified under the grassed area near Gate 1 at Georges River College, Peakhurst Campus.

At the time of the find, the area was already fenced off and inaccessible to students and staff as it is a construction zone.

An independent hygienist has been engaged to collect the fragments for testing, undertake air monitoring and provide remediation advice. Work has been suspended and the affected area has been covered in geofabric until clearance is provided by the independent hygienist.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and monitored by independent hygienists.

The health, safety and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
