

Scone High School

Works notification | 27 August 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We are removing electrical equipment no longer used in buildings I and H, at Scone High School.

The electrical backing board and electrical incinerator contain both bonded and friable asbestos-containing material (ACM) as listed on the School Asbestos Management Plan (SAMP). Neither of these are accessible by staff or students.

The electrical equipment will be removed on Saturday 29 August 2026 between 8 am and 1 pm under the guidance of an independent hygienist with safety measures, including air monitoring, in place. The hygienist will inspect and issue a clearance certificate once the work is finished.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors.

If you have any questions about this work, please contact the NSW Department of Education on the details below. We'll pass your question on to the right person.

Thank you for your understanding and support during this important work.

For more information about asbestos, please visit the [NSW Health website](#) or scan the QR code.
