

# Morisset High School

Works notification | 14 December 2023

Dear staff and parents/carers,

We are doing minor repair works on the ceiling in 3 classrooms, on the upper level of Building 1A at Morisset High School.

This work will involve patching areas to ensure the ceiling has a strong seal due to asbestos containing material in the ceiling cavity, known and on the school's asbestos register. This work will take place after school hours on Thursday 14 December 2023.

The rooms have been cordoned off since Monday 11 December 2023. Air monitoring has been in place since this time and will remain in place during work. All air monitoring to date has returned results below the minimum detectable limit, which means it is consistent with acceptable levels in ambient air (i.e. <0.01 fibres/mL) as per SafeWork NSW guidelines.

Work will be done in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The building will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate before the rooms are reopened.

The health, safety, and wellbeing of the school and local community is our highest priority, and we will continue to keep the community updated.

Thank you for your cooperation during this important work.
