

Morrisset High School

Works notification

2 June 2022

Dear staff and parents/carers,

Further to our notification dated 17 December 2021, upcoming maintenance works at Morrisset High School will require working with lead containing material to remediate the agricultural plot that has been cordoned off since December 2021.

Safety measures and monitoring have been in place to ensure there is no risk to students, staff or the local community. As a precaution, the area has been cordoned off and will remain out of bounds to students and staff until remediation is completed.

This material will be remediated in accordance with SafeWork NSW regulations. All work will be completed in strict accordance with all applicable legislation, regulations, policies and guidelines.

The material is scheduled to be remediated from the agricultural plot between Saturday 4 June and Sunday 5 June 2022. All lead containing material will be removed outside of school hours.

Testing will be completed to ensure the area has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff. We will keep you informed if further material is found which requires removal.

Thank you for your cooperation during this important work.
