

# Evans High School

Works notification | 22 September 2023

Dear staff and parents/carers,

We are repairing damaged flooring due to a water leak in the staff change room in Building AM at Evans High School.

As part of this work, asbestos containing vinyl tiles located under the existing flooring will need to be removed.

The staff change room is currently locked in preparation for work and will be cordoned off before the work starts.

This work will take place during the upcoming Spring school holidays.

All work involving asbestos containing materials will take place outside of school hours, with additional safety measures and monitoring in place before the work starts.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The staff change room will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate before it is reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
