

Killarney Heights High School

Works notification | 28 June 2024

Dear staff, parents and carers,

Work took place at Killarney Heights High School on Tuesday 25 June, to address gas leaks in 2 science labs and inspect the science prep room. A gas connection and 5 gas taps were repaired.

The work took place before school hours, and the science lab was cordoned off and inaccessible to students and staff while work was being done.

All work was completed by qualified and licensed gas repair professionals.

As an added precaution, all science labs and science prep rooms were inspected by an independent hygienist before school hours on Wednesday 26 June.

The hygienist cleared all science labs and prep rooms for use, and confirmed the labs where work took place on Tuesday have been fully remediated.

Our highest priority is the health, safety, and wellbeing of the school and the local community.

If you have any questions about this work, please contact the NSW Department of Education during business hours on the details below.
