

Killarney Heights High School

Works notification | 10 December 2025

Dear staff, parents and carers,

Important refurbishments are currently underway at Killarney Heights High School to upgrade a classroom into new and improved support class learning spaces.

The new support class spaces, complete with a withdrawal room, is planned to be finished and ready for students to use by Day 1 Term 1 2026.

The new support class spaces, located in Building E next to the school's assembly area, is listed on the School Asbestos Management Plan. On Saturday 13 December 2025, floor coverings in this area, known to contain asbestos, will be removed as part of the works.

Access to the area will be securely restricted for the duration of the works, with air monitoring and signage in place as safety precautions. All asbestos removal work will be completed outside of school hours when no students or staff are present.

Once completed, an independent hygienist will be engaged to inspect the area and conduct testing. Once the hygienist clears the area to be reopened, works to upgrade existing facilities will continue.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We will keep the community updated.

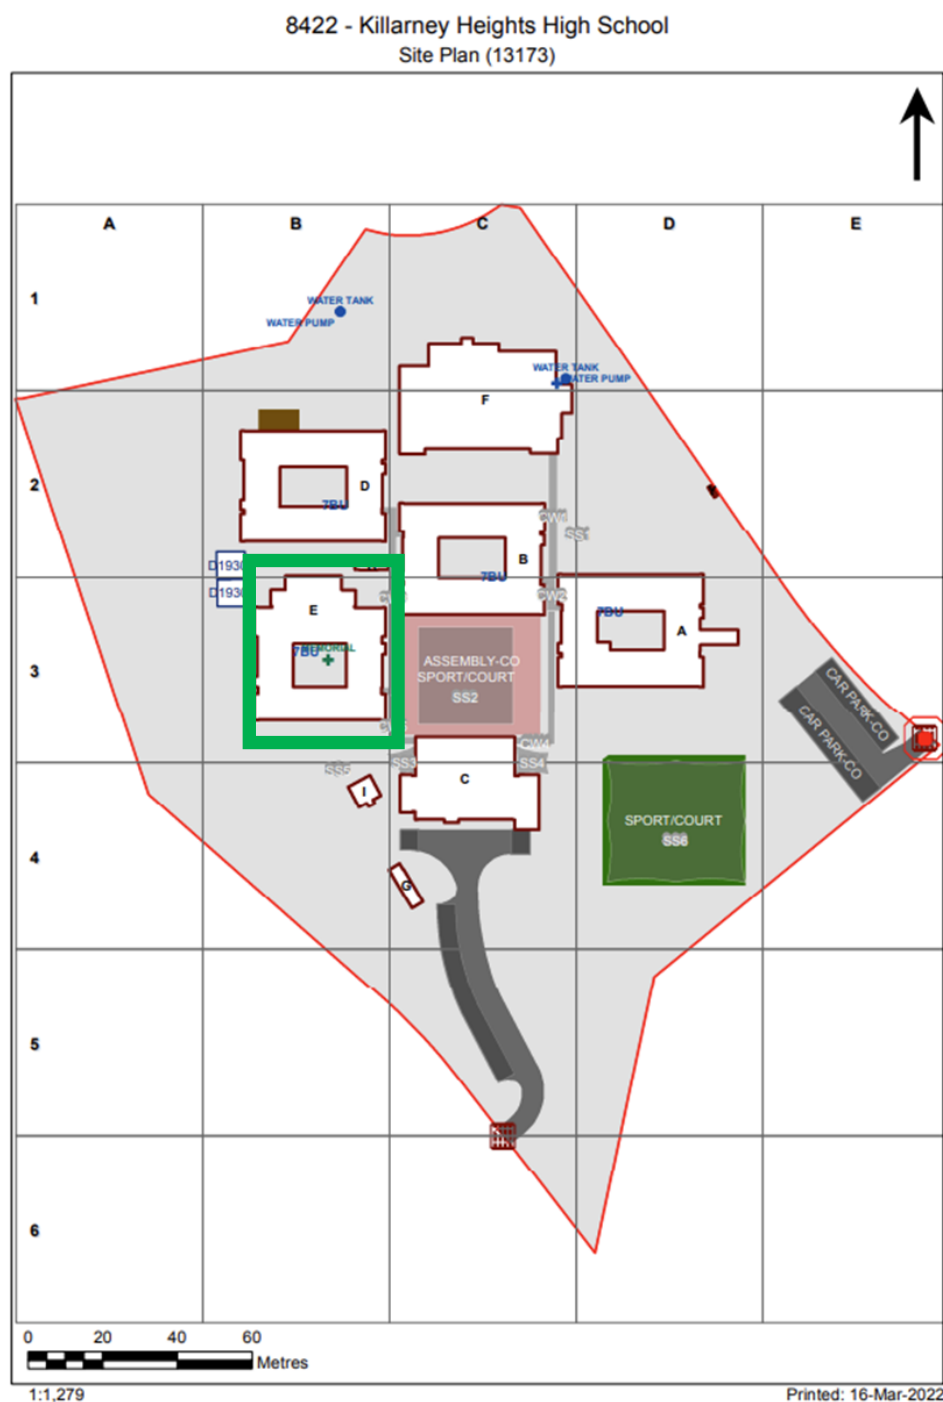

Thank you for your cooperation during this important work.

What makes Killarney Heights High School special?

Killarney Heights High School is the Northern Beaches' leading co-educational comprehensive school, consistently achieving outstanding HSC results. Our students excel across all subjects – English ranked second in NSW in 2023 – and benefit from extension classes, innovative teaching and personalised support that helps every learner achieve their best.
