

Kotara High School

Works notification | 11 May 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

On Thursday 7 May 2026, a cracked window was identified in a Building A classroom at Kotara High School.

The putty material in this window is known to contain bonded asbestos, as listed on the School Asbestos Management Plan.

The glass was immediately secured and an independent hygienist was engaged to provide advice.

Work to remove asbestos-containing materials and replace the glass will take place on **Saturday 16 May 2026**.

All work will be done in accordance with work, health and safety laws. All work will be completed by experienced contractors and inspected by independent hygienists.

If you have any questions about this, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this important work.

What makes Kotara High School special?

Kotara High School is known for its strong sense of community, inclusive culture, and focus on supporting students to achieve success in a wide range of pathways. The school values respect, responsibility and personal growth, creating a welcoming environment where students feel connected and supported.
