

Francis Greenway High School

Works notification | 14 May 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We are replacing the roof of Building E at Francis Greenway High School.

During this work, asbestos-containing material was identified in the external fascia cladding.

The area was already fenced off for the safety of students and staff while roofing works are underway. As a precaution, work stopped and safety measures were put in place.

Work to remove the external fascia cladding will take place from Saturday 16 May to Sunday 17 May 2026.

All work will be done in accordance with work health and safety laws. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

The roof replacement of Building E has not been delayed by the asbestos removal work and the project is on track to be finished by June 2026.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support during this important work.

What makes Francis Greenway High School special?

Francis Greenway High School fosters a supportive culture where every student is encouraged to reach their potential and prepare for life beyond school.
