

Oxley High School

Community update | November 2024

Dear staff, parents, and carers,

As part of the NSW Government's record \$1.5 billion investment in maintenance and local upgrades, we are writing to inform you about upcoming roofing replacement works at Oxley High School.

This work is scheduled to begin in Term 1, 2025.

Roof works

Existing roof sheeting on Buildings H, M and N will be replaced.

The Building A roof pitch will be increased in flatter sections, and modifications will be made to parapet walls – including removing box gutters – to improve drainage.

Works related to all buildings include the installation of new roof access points, fascia cladding, downpipes and connections to stormwater pits.

Redundant services will be removed to ensure the buildings are watertight and future-proof.

More information

We will keep the community updated and provide more information as it becomes available.

If you have any questions about this project, please contact the NSW Department of Education during business hours on the details below.
