

Oxley High School

Works notification | 14 July 2026

Dear parents, staff and carers,

We are pleased to advise that as part of our planned maintenance schedule, we are replacing the roof and external cladding on Buildings A, H, M and N at Oxley High School.

These areas are known to contain bonded asbestos as listed on the School's Asbestos Management Plan.

The maintenance works commenced during the winter school holidays and are expected to continue until the end of Term 4 2026.

During the works, students and staff will be accommodated in alternative locations within the school to minimise disruption to teaching and learning. Construction areas will be restricted, with no access for staff and students throughout the duration of the works.

Construction activities will generate some noise due to the operation of heavy machinery, including cranes, trucks and delivery vehicles. Increased vehicle movements and construction-related noise can be expected along Piper Street and surrounding areas.

As a result, nearby residents and the school community may experience temporary noise and minor disruptions during the works. Contractors will implement appropriate noise and dust mitigation measures and monitor noise levels throughout the construction period to minimise impacts on the school and neighbouring properties.

For information about how we manage construction impacts in your community, visit <http://edu.nsw.link/ConstructionImpacts>.

All work involving asbestos containing materials will take place with safety measures such as personal protective equipment, temporary fencing and air monitoring in place. All work will be done in accordance with work health and safety laws and will be inspected by an independent hygienist.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this project, please contact the NSW Department of Education during business hours using the details below.

Thank you for your understanding during this important work.
