

Glendale Technology High School

Works notification | 3 February 2025

Dear staff, parents, carers and neighbours,

As part of planned maintenance, we are replacing roof materials on the library block (Building B) at Glendale Technology High School.

The material in the roof sheeting contains bonded asbestos as listed on the school's asbestos register. NSW Health explains that 'living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged'.

Work to remove the roof material is planned to take place on:

- Saturday 8 February 2025, 7 am to 5 pm
- Sunday 9 February 2025, 8 am to 4 pm.

During this time contractors and vehicles will be accessing the school site.

Following its removal, the roof material will be replaced with standard metal roof sheeting.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and monitored by independent hygienists.

Following the work, the building will be inspected by an independent hygienist and clearance will be provided.

The health, safety and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
