

Lake Illawarra High School

Works notification | 7 June 2023

Dear staff and parents/carers,

We are replacing the ceiling eaves at Lake Illawarra High School. As part of this work, asbestos containing material within the ceiling will need to be removed from two storerooms and the external staircases in Building A, external movement areas Building B, C and E, and a classroom and adjoining storeroom in Building H.

The rooms are being safely used at present as the ceiling eaves are undisturbed and out of reach to students and staff.

The areas will be cordoned off before the work starts, and safety measures and monitoring put in place.

Work to remove the ceiling eaves will take place after school hours between Tuesday 13 June and Friday 30 June 2023.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The areas will be inspected by an independent hygienist to confirm they have been fully remediated, and the school will receive a clearance certificate before they are reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
